2.2. The source of funding is:

a. **NGA, RA No. 11936 or the General Appropriations Act of FY 2023.**

3. Bidding Requirements

The Bidding for the Project shall be governed by all the provisions of RA No. 9184 and its 2016 revised IRR, including its Generic Procurement Manuals and associated policies, rules and regulations as the primary source thereof, while the herein clauses shall serve as the secondary source thereof.

Any amendments made to the IRR and other GPPB issuances shall be applicable only to the ongoing posting, advertisement, or **IB** by the BAC through the issuance of a supplemental or bid bulletin.

The Bidder, by the act of submitting its Bid, shall be deemed to have verified and accepted the general requirements of this Project, including other factors that may affect the cost, duration and execution or implementation of the contract, project, or work and examine all instructions, forms, terms, and project requirements in the Bidding Documents.

4. Corrupt, Fraudulent, Collusive, and Coercive Practices

The Procuring Entity, as well as the Bidders and Suppliers, shall observe the highest standard of ethics during the procurement and execution of the contract. They or through an agent shall not engage in corrupt, fraudulent, collusive, coercive, and obstructive practices defined under Annex "I" of the 2016 revised IRR of RA No. 9184 or other integrity violations in competing for the Project.

5. Eligible Bidders

5.1. Only Bids of Bidders found to be legally, technically, and financially capable will be evaluated.

- 5.2. Foreign ownership exceeding those allowed under the rules may participate:
- i. When a Treaty or International or Executive Agreement as provided in Section 4 of the RA No. 9184 and its 2016 revised IRR allow foreign bidders to participate;
 - ii. Citizens, corporations, or associations of a country, included in the list issued by the GPPB, the laws or regulations of which grant reciprocal rights or privileges to citizens, corporations, or associations of the Philippines;
 - iii. When the Goods sought to be procured are not available from local suppliers; or
 - iv. When there is a need to prevent situations that defeat competition or restrain trade.
- 5.3. Pursuant to Section 23.4.1.3 of the 2016 revised IRR of RA No.9184, the Bidder shall have at least one (1) contract similar to the Project (SLCC) the value of which, adjusted to current prices using the PSA's CPI, must be at least equivalent to:
- a. at least fifty percent (50%) of the ABC.
- 5.4. The Bidders shall comply with the eligibility criteria under Section 23.4.1 of the 2016 IRR of RA No. 9184.

6. Origin of Goods

There is no restriction on the origin of goods other than those prohibited by a decision of the UN Security Council taken under Chapter VII of the Charter of the UN, subject to Domestic Preference requirements under **ITB** Clause 18.

7. Subcontracts

7.1. The Procuring Entity prescribes that: Subcontracting is **not** allowed.

8. Pre-Bid Conference

The Procuring Entity will hold a pre-bid conference for this Project on the specified date and time and either at its physical address and/or through videoconferencing/webcasting} as indicated in paragraph 6 of the **IB**.

9. Clarification and Amendment of Bidding Documents

Prospective bidders may request for clarification on and/or interpretation of any part of the Bidding Documents. Such requests must be in writing and received by the Procuring Entity, either at its given address or through electronic mail indicated in the

IB, at least ten (10) calendar days before the deadline set for the submission and receipt of Bids.

10. Documents comprising the Bid: Eligibility and Technical Components

- 10.1. The first envelope shall contain the eligibility and technical documents of the Bid as specified in **Section VIII (Checklist of Technical and Financial Documents)**.
- 10.2. The Bidder's SLCC as indicated in **ITB** Clause 5.3 should have been completed within **three (3) years** prior to the deadline for the submission and receipt of bids.
- 10.3. If the eligibility requirements or statements, the bids, and all other documents for submission to the BAC are in foreign language other than English, it must be accompanied by a translation in English, which shall be authenticated by the appropriate Philippine foreign service establishment, post, or the equivalent office having jurisdiction over the foreign bidder's affairs in the Philippines. Similar to the required authentication above, for Contracting Parties to the Apostille Convention, only the translated documents shall be authenticated through an apostille pursuant to GPPB Resolution No. 13-2019 dated 23 May 2019. The English translation shall govern, for purposes of interpretation of the bid.

11. Documents comprising the Bid: Financial Component

- 11.1. The second bid envelope shall contain the financial documents for the Bid as specified in **Section VIII (Checklist of Technical and Financial Documents)**.
- 11.2. If the Bidder claims preference as a Domestic Bidder or Domestic Entity, a certification issued by DTI shall be provided by the Bidder in accordance with Section 43.1.3 of the 2016 revised IRR of RA No. 9184.
- 11.3. Any bid exceeding the ABC indicated in paragraph 1 of the **IB** shall not be accepted.
- 11.4. For Foreign-funded Procurement, a ceiling may be applied to bid prices provided the conditions are met under Section 31.2 of the 2016 revised IRR of RA No. 9184.

12. Bid Prices

- 12.1. Prices indicated on the Price Schedule shall be entered separately in the following manner:
 - a. For Goods offered from within the Procuring Entity's country:
 - i. The price of the Goods quoted EXW (ex-works, ex-factory, ex-warehouse, ex-showroom, or off-the-shelf, as applicable);

- ii. The cost of all customs duties and sales and other taxes already paid or payable;
 - iii. The cost of transportation, insurance, and other costs incidental to delivery of the Goods to their final destination; and
 - iv. The price of other (incidental) services, if any, listed in e.
- b. For Goods offered from abroad:
- i. Unless otherwise stated in the **BDS**, the price of the Goods shall be quoted delivered duty paid (DDP) with the place of destination in the Philippines as specified in the **BDS**. In quoting the price, the Bidder shall be free to use transportation through carriers registered in any eligible country. Similarly, the Bidder may obtain insurance services from any eligible source country.
 - ii. The price of other (incidental) services, if any, as listed in **Section VII (Technical Specifications)**.

13. Bid and Payment Currencies

13.1. For Goods that the Bidder will supply from outside the Philippines, the bid prices may be quoted in the local currency or tradeable currency accepted by the BSP at the discretion of the Bidder. However, for purposes of bid evaluation, Bids denominated in foreign currencies, shall be converted to Philippine currency based on the exchange rate as published in the BSP reference rate bulletin on the day of the bid opening.

13.2. Payment of the contract price shall be made in:

- a. Philippine Pesos.

14. Bid Security

14.1. The Bidder shall submit a Bid Securing Declaration¹ or any form of Bid Security in the amount indicated in the **BDS**, which shall be not less than the percentage of the ABC in accordance with the schedule in the **BDS**.

14.2. The Bid and bid security shall be valid until **120 calendar days from date of opening of bids**. Any Bid not accompanied by an acceptable bid security shall be rejected by the Procuring Entity as non-responsive.

15. Sealing and Marking of Bids

Each Bidder shall submit one copy of the first and second components of its Bid.

¹ In the case of Framework Agreement, the undertaking shall refer to entering into contract with the Procuring Entity and furnishing of the performance security or the performance securing declaration within ten (10) calendar days from receipt of Notice to Execute Framework Agreement.

The Procuring Entity may request additional hard copies and/or electronic copies of the Bid. However, failure of the Bidders to comply with the said request shall not be a ground for disqualification.

If the Procuring Entity allows the submission of bids through online submission or any other electronic means, the Bidder shall submit an electronic copy of its Bid, which must be digitally signed. An electronic copy that cannot be opened or is corrupted shall be considered non-responsive and, thus, automatically disqualified.

16. Deadline for Submission of Bids

16.1. The Bidders shall submit on the specified date and time and either at its physical address or through online submission as indicated in paragraph 7 of the **IB**.

17. Opening and Preliminary Examination of Bids

17.1. The BAC shall open the Bids in public at the time, on the date, and at the place specified in paragraph 9 of the **IB**. The Bidders' representatives who are present shall sign a register evidencing their attendance. In case of videoconferencing, webcasting or other similar technologies will be used, attendance of participants shall likewise be recorded by the BAC Secretariat.

In case the Bids cannot be opened as scheduled due to justifiable reasons, the rescheduling requirements under Section 29 of the 2016 revised IRR of RA No. 9184 shall prevail.

17.2. The preliminary examination of bids shall be governed by Section 30 of the 2016 revised IRR of RA No. 9184.

18. Domestic Preference

18.1. The Procuring Entity will grant a margin of preference for the purpose of comparison of Bids in accordance with Section 43.1.2 of the 2016 revised IRR of RA No. 9184.

19. Detailed Evaluation and Comparison of Bids

19.1. The Procuring BAC shall immediately conduct a detailed evaluation of all Bids rated "*passed*," using non-discretionary pass/fail criteria. The BAC shall consider the conditions in the evaluation of Bids under Section 32.2 of the 2016 revised IRR of RA No. 9184.

19.2. If the Project allows partial bids, bidders may submit a proposal on any of the lots or items, and evaluation will be undertaken on a per lot or item basis, as the case maybe. In this case, the Bid Security as required by **ITB** Clause 15 shall be submitted for each lot or item separately.

19.3. The descriptions of the lots or items shall be indicated in **Section VII (Technical Specifications)**, although the ABCs of these lots or items are indicated in the

BDS for purposes of the NFCC computation pursuant to Section 23.4.2.6 of the 2016 revised IRR of RA No. 9184. The NFCC must be sufficient for the total of the ABCs for all the lots or items participated in by the prospective Bidder.

- 19.4. The Project shall be awarded as one contract.
- 19.5. Except for bidders submitting a committed Line of Credit from a Universal or Commercial Bank in lieu of its NFCC computation, all Bids must include the NFCC computation pursuant to Section 23.4.1.4 of the 2016 revised IRR of RA No. 9184, which must be sufficient for the total of the ABCs for all the lots or items participated in by the prospective Bidder. For bidders submitting the committed Line of Credit, it must be at least equal to ten percent (10%) of the ABCs for all the lots or items participated in by the prospective Bidder.

20. Post-Qualification

- 20.2. Within a non-extendible period of five (5) calendar days from receipt by the Bidder of the notice from the BAC that it submitted the Lowest Calculated Bid, the Bidder shall submit its latest income and business tax returns filed and paid through the BIR Electronic Filing and Payment System (eFPS) and other appropriate licenses and permits required by law and stated in the **BDS**.

21. Signing of the Contract

Section IV. General Conditions of Contract

1. Scope of Contract

This Contract shall include all such items, although not specifically mentioned, that can be reasonably inferred as being required for its completion as if such items were expressly mentioned herein. All the provisions of RA No. 9184 and its 2016 revised IRR, including the Generic Procurement Manual, and associated issuances, constitute the primary source for the terms and conditions of the Contract, and thus, applicable in contract implementation. Herein clauses shall serve as the secondary source for the terms and conditions of the Contract.

This is without prejudice to Sections 74.1 and 74.2 of the 2016 revised IRR of RA No. 9184 allowing the GPPB to amend the IRR, which shall be applied to all procurement activities, the advertisement, posting, or invitation of which were issued after the effectivity of the said amendment.

Additional requirements for the completion of this Contract shall be provided in the **Special Conditions of Contract (SCC)**.

2. Advance Payment and Terms of Payment

2.1. Advance payment of the contract amount is provided under Annex “D” of the revised 2016 IRR of RA No. 9184.

2.2. The Procuring Entity is allowed to determine the terms of payment on the partial or staggered delivery of the Goods procured, provided such partial payment shall correspond to the value of the goods delivered and accepted in accordance with prevailing accounting and auditing rules and regulations. The terms of payment are indicated in the **SCC**.

3. Performance Security

Within ten (10) calendar days from receipt of the Notice of Award by the Bidder from the Procuring Entity but in no case later than prior to the signing of the Contract by both parties, the successful Bidder shall furnish the performance security in any of the forms prescribed in Section 39 of the 2016 revised IRR of RA No. 9184.

4. Inspection and Tests

The Procuring Entity or its representative shall have the right to inspect and/or to test the Goods to confirm their conformity to the Project specifications at no extra cost to the Procuring Entity in accordance with the Generic Procurement Manual. In addition to tests in the **SCC, Section IV (Technical Specifications)** shall specify what inspections and/or tests the Procuring Entity requires, and where they are to be conducted. The Procuring Entity shall notify the Supplier in writing, in a timely manner, of the identity of any representatives retained for these purposes.

All reasonable facilities and assistance for the inspection and testing of Goods, including access to drawings and production data, shall be provided by the Supplier to the authorized inspectors at no charge to the Procuring Entity.

5. Warranty

- 6.1. In order to assure that manufacturing defects shall be corrected by the Supplier, a warranty shall be required from the Supplier as provided under Section 62.1 of the 2016 revised IRR of RA No. 9184.
- 6.2. The Procuring Entity shall promptly notify the Supplier in writing of any claims arising under this warranty. Upon receipt of such notice, the Supplier shall, repair or replace the defective Goods or parts thereof without cost to the Procuring Entity, pursuant to the Generic Procurement Manual.

TERMS OF REFERENCE

Supply and Delivery of Third-Party Risk Management Solution

Background:

In an increasingly interconnected and digital business environment, the reliance on third-party vendors, suppliers, and service providers has become integral to the operations of modern organizations. These external relationships offer numerous benefits, such as cost efficiencies, specialized expertise, and access to global markets. However, they also introduce a new set of challenges and risks, particularly in the realm of cybersecurity and data protection.

The Case Management Service recognizes the critical importance of effectively managing third-party risks to safeguard our operations, protect sensitive data, and maintain the trust of our stakeholders. As a result, procuring a comprehensive third-party risk management solution has become a strategic imperative for our organization.

Objective:

The primary aim of this procurement initiative is to acquire a third-party risk management solution to enhance our cybersecurity posture and protect our digital assets, data, and infrastructure from evolving cyber threats.

It also aims to improve risk mitigation, compliance requirements, data protection, and operational continuity by addressing security issues detected by the solution. In addition, the said solution can also assist in determining whether our current and future partners adhere to the standards of cyber security principles.

Terms:

1. *Scope.* – Supply and delivery of third-party risk management service.
2. *ABC.* - The Approved Budget for the Contract (ABC) is **One Million and Eight Hundred Thousand Pesos (₱1,800,000.00)**, including all government taxes, charges, and other standard fees.

ITEM	SPECIFICATIONS	STATEMENT OF COMPLIANCE
Ratings Evaluation Requirements Criteria		
	The solution should be able to provide security ratings of an organization that is highly accurate and reliable from an outside in security perspective. The ratings should be created and updated automatically through software automation. The ratings should be shown as scores and be updated daily as new security issues are detected.	
	The scores should have a published algorithm and have a direct correlation to possible cyber breaches/risks. There	

	should be a documented whitepaper with 3rd party validation on the scoring methodology.	
	The solutions' ratings/scores should publish its scoring methodology and algorithm publicly so that organizations can understand how they are being scored by the solution and validate the scores appropriately for the organization's remediation actions.	
	The solution should be widely adopted and in use by existing suppliers. Organizations should be able to see which suppliers are actively engaged and not engaged in the platform.	
	The solution should be easy to use and navigate so that all our stakeholders, technical or non-technical, can use it without formal training. However, formal training and Executive Briefings should be provided as part of standard customer service.	
	The solution should be able to fill multiple use cases of Cyber Reputation Management, Merger & Acquisitions, Vendor Due Diligence, Regulatory/Compliance, Vendor Risk Management, and Executive Level Reporting.	
	The solution should be able to provide a company tree of all subsidiaries and provide independent scoring for each of the subsidiaries. The score should be available to view without consuming additional licenses.	
Response Time of Solution and Ease to Scale		
	The solution should be able to rate and monitor your entire global supply chain. Both small, large and new companies should already be in the ratings platform to derive meaningful timely value.	
	In the event there is an unscored organization in the ratings platform, the solution should rapidly be able to produce a new rating under 20 minutes.	
	The solution should have the ability to be flexible in its licensing model. The ability to monitor and un-monitor organizations at will allowing the customer to bring organizations in and out of the platform without adversely impacting their licensing.	
	The solution should provide both risk matrix categorization and the ability to put vendors into different folders.	
Ratings/Scores Features		
	The solution's data should be presented in a manner that is easy to review and drill specifically into the data.	
	The solution's scoring should update its score daily as new security issues are detected by the ratings solution. New security issues detected should be visible and prioritized in the platform daily.	

	The solution should be able to generate an improvement plan on how to mitigate risk and improve the rating. The score improvement plan should clearly show the forecasted change when the specific issues are resolved.	
	The solution should be capable on describing a security issue, when it detects one. It should provide information on why it's a risk and what the recommendations are to fix the risk. The solution should also disclose the full IP details and a timestamp of when this issue was last observed.	
	The solution should be capable on looking at an organization's digital assets. It should be easily able to see all the IPs that belongs to an organization. Full IP details should be disclosed with sources for attribution.	
	The solution should also have an interface in the platform to self-correct the digital footprint in the event the IP attribution is incorrect. An interface should allow an organization to self-correct its digital footprint by requesting IPs to be added or removed.	
	The solution should be capable to create a customized rating or scorecard specifically targeting a part/subsidiary/department of a large organization by using filters such as IP ranges, domains, sub-domains and geographic location.	
	The solution should provide a compliance mapping to conduct a gap analysis of commonly used frameworks such as CMMC, GDPR, HIPPA, ISO 27001, NIST, NERC, NYDFS, PCI, SIG (Core, Full, Lite).	
	The Solution should have map external findings back to SIG (Core, Full, Lite).	
	The solution should have the ability to upload a custom assessment and map its external findings to the related issue.	
	The solution should allow for vendor detection of 4th parties.	
	The solution should have configurable alerts & notifications. Alerts should be configurable based on score change, risk factor change, new issues being detected, and new breaches being detected, etc. Notifications should be configurable to alert individuals or teams.	
Remediation of Issues Features		
	When fixing a detected security issue, the solution should provide an interface for submitting the items that have been fixed for review to the ratings provider. When submitting the item for review, there should be notification sent back to the submitter for tracking purposes.	

	During the remediation process, the submitter should receive an email confirmation if the issues have been resolved or declined. The solution should provide a dashboard showing all vendor invitations (accepted, declined) and the vendor is actively working through the issues.	
	The Solution should update within 72 hours after the remediation activity occurs.	
	When contesting false positive, the solution should provide an interface for submitting detected security issues that are believed to be false positives. If false positives do occur and are accepted by the ratings provider, they should be removed from the card within 72 hours.	
	Must include product training and demonstration on deployment, configuration, administration, maintenance, and basic troubleshooting	
Generation of Reports		
	The solution should provide a variety of reports on a company's security posture, including summary reports (simplified view) and detailed reports (all detected security issues with full IP details).	
	The solution should allow for side-by-side comparison reporting of various organizations while providing performance trends overtime.	
	The solution should provide board friendly reports for average supply scores, monitored organizations, engaged organizations, risk remediation performance & findings, and breaches for your own organization and your vendors.	
	The solution should provide board friendly reports for average supply scores, monitored organizations, engaged organizations, risk remediation performance & findings, and breaches for your own organization and your vendors.	
Inviting other Vendors/Suppliers/Organizations Features		
	The solution should allow for access on visibility to a vendor, supplier or other organizations. The invited organization should have the same full access capability.	
	The solution should provide a dashboard to track invited vendors/supplier/organization that have accepted the invitation and are remediating security issues.	
	The solution should have visibility into remediation activities being conducted by 3rd party vendors/suppliers/organizations.	

	When inviting a vendor/supplier/organization, a designated contact should be provided in the situation that vendor is active is using the same platform.	
Integration of 3rd party tools (SIEM, RMM, PSA, etc)		
	The solution should provide an extensive Marketplace for Integrations, API and Developer Hubs.	
	The library to integrate with a SIEM, Ticketing Systems, Productivity Systems and GRC Solutions.	
	The API should allow for building a custom integration, if necessary, with access to a well-documented API with code examples in multiple languages such as Python and JavaScript.	
	The platform should have a named customer success manager assigned to the customer. The customer success manager is responsible for onboarding your team, leading the development of your customer success plan, schedule regular cadence of status meetings (and working sessions as needed), working as an extension of your team to onboard vendors, validation of your IP footprint, coordinate roadmap reviews and provide your feedback on product enhancement to the product team as part of the license fee.	
	The service should offer an Executive Business Review on a regular basis to remain on track with company goals and objectives.	
Licensing		
	The solution should stay have continuous monitoring license that always provides deep level access and remediation.
